PROFESSIONAL SUMMARY

Remote e-commerce virtual assistant with hands-on Shopify experience building and managing complete online storefronts, paired with three years of U.S.-account BPO customer service (healthcare and ticketing verticals). Self-built two live Shopify stores across different niches — Office & Home Essentials and Facial Skincare — covering product catalog setup, collection structure, imagery sourcing, promotions, and inventory management end to end. Documented track record of 98% resolution accuracy, 97%+ QA scores, and a top 10% agent ranking in prior customer service roles. Comfortable managing store operations independently and communicating clearly with clients and customers alike.

WORK EXPERIENCE

Shopify Store Owner / E-Commerce Operator — North & Nest — Office & Home Essentials Brand 2026

- Built a complete Shopify store solo — catalog, product imagery, and store operations — across 6 fully specced products in Office and Home Essentials collections.
- Sourced product photography using two methods within one project: AI-image generation for 4 items and licensed Adobe Stock photography for 2 items after switching sourcing mid-catalog when the free AI quota was reached.
- Structured collections and navigation for easy browsing and future catalog scaling.

Shopify Store Owner / E-Commerce Operator — Thistle & Bloom — Facial Skincare Brand 2026

- Built and launched a 4-product skincare catalog end to end, including original product copywriting in a warm, conversational brand voice distinct from North & Nest's functional tone.
- Set up a Klaviyo abandoned-cart email flow to support conversion.
- Created and launched a discount code (BLOOM15) for the store opening.
- Sourced and prepared product imagery via Canva and AI image generation tools.
